

# NIMBUS®

**PRE-INSULATED**  
**MECHANICAL** connectors

**4FLEX** MULTIPLE CONFIGURATIONS  
**MOTORS**  
 BROAD WIRE RANGE  
**SHAPES**  
 MOUNTABLE

**Screw Body**  
 allows tightening  
 and loosening with  
 internal hex head

**Pad**  
 eliminates tearing  
 of strands in DLO  
 and flex wire

**Integrated  
 locking washer**  
 provides constant  
 normal force  
 around pad

## **NIMBUS4FLEX: Your Flex Wire Solution**

**The industry's broadest selection of pre-insulated connectors across multiple conductor classes**

The offering includes in-line, multi-tap, single-, double-, or multi-side entry, mountable and high density 2X for code and flex conductors. A multitude of configurations afford the installer the ability to select the right connector for the job. Mix any conductor class and material via staggered ports with NIMBUS4FLEX. Our patented screw design with integrated locking washer improves vibration resistance, compresses the conductor without damage and eliminates the need for a ferrule.

**NIMBUS is a Premium Choice for Professionals.**
